MANUAL.

Handbook of reference for the determination of Chinese Dates, during th period from 1860 to 1869; with comparative Tables of Annual and Mensual Designations &c., &c. Compiled by WILLIAM FREDE-RICK MAYERS, H.M.C.S.

Author's Preface. Most persons whose avocations or studies are connected even remotely with Chinese subjects are wont to confess the need of a convenient manual of reference for the purpose of determining dates according to either the European or the Chinese method of computation; and a system of comparison for the names attributed to years, months, and other periods is also frequently a desideratum with translators and readers of Chinese literature. The compiler of the following tables has thought. accordingly, that their publication in a convenient form may prove useful, although much yet remains to be done for the elabou ration of comparative calendars, etc. that should leave nothing to be desired. With the exception of the Cyclical Table of Europe. Years, and the Table of Solar Torms, both of which were originally compiled by Dr. Morrison, and afterwards republished with improvements in Williams' Commercial European, able to take entire charge Guide, from which (with some alteration) of the China Magazine, printing and publisher are now copied, the whole of the matlishing business. HONGKONG, TUESDAY, JUNE 1, 1869.

THE NATIVE HOSPITAL. Ir is with much pleasure, that we learn of steps having been taken by a number of influential Chinese resident in Colony to remove the disgrace of inhumanity hitherto reating upon their countrymen by forming a hospital committee with ample funds at its disposal to at once commence operations. Mr Ho A mik of the Kin Nam Hong is named as Chairman, his associates being some twenty in number. That they are tho roughly in earnest may be believed from the fact that they guarantee from ten to fifteen thousand dollars by way of commencement, trusting to add to that sum by a general subscription which is shortly to be opened. To this the richer Chi nese and many foreign firms will, it believed, be quite willing to contribute in his report to the Governor of Maco, more or less proportion, and money devoted to such a purpose will not be illspent. We have hade some enquiry and are able to give a sketch of the action proposed by the committee. As however we understand that H. E. Governor has promised some help in the way of site or otherwise, provided the or import that possesses a Senhor Fermeasures to be taken are submitted for stand the possibility of a recentation ritius, Fues and Alexandria; after his approval, it is of course possible that being forced on the less independent some modifications will be made.

part of the native merchants had been paper statement." We shall very care broadled long previous to the recent fully watch the resumption of the cools E-tee affair; but until public attention, trade to Peru. There must be no both foreign and Chinese, was called to renewal in Hongkong of the kidnapping the sad want of suitable accommodation barracoons of 1866. The following for deceased Chinese, nothing appears to translated from the Macao Boletim have been done. Now that Mr Ho A-nik Consulate General of Postucal in Pret. and his committee have taken up the matter, we may, however, look to its speedy realisation. Various sites have Government of Macao, Timor and their been proposed, but that to which most attention has been directed is a plot situated immediately behind St. Stephen's Chanel, as being in the centre of the native quarters of the town, and so within easy

reach of the class of patients for which it is intended. A commission consisting of The Colonial Surgeon, The Inspector General of Schools and the Registrar General was recently nominated by His Excellency to take this and other proposals made by the Committee into consideration. Their report has not yet been made public, but the advantages of the locality named were, we know. pressed upon their attention. If it be chosen and we could not suggest a better one, it would be necessary to clear the ground of some of the existing huts (they cannot be called houses) which are found there, a matter more easy for official than private effort to accomplish With a compound sufficiently large to admit of trees being planted and walksformed not only would additional healthiness be secured, but danger from fire would be avoided; while greater freedom from noise would be afforded to the patients. The building itself-we are not in possession of the details of its architecture is we believe to contain about 100 beds, and resident native doctors, nurses, &c., &c., are to be attached to it. Vaccination will be performed gratuitously, and a certain amount of check upon native medical vagaries will he afforded by the agreement that some duly qualified European, appointed by the government, shall be permitted to inspect it bi-weekly, or daily, if neces-

Such is a bare outline of the scheme believe submitted to the Commissioners . 30.020 | who will of course make their own remarks in modification or otherwise of the proposals. But the erection and or ganization of such an establishment is not even with the most zealons aid the work of a day, and meantime something must be done for the class of native destitutes so largely increasing in this colony, It is all very well to say "take them to the Civil Hospital." A very large number of moribunds have indeed of late been received within its walls. But apart from the circumstance that the Civil-Hospital-is intended for curable. cases rather than incurables the effect of numbers being brought in to die is hurtful to the regular class of patients. There is some whisper affect that a propossit has been made to re-open the E Teze "Hospital." Over \$1,000 have been subscribed to pay for a native doo! tor, keeper, and nurses, if permission to re-open be given. But while we recognize the importance and necessity of having some such temporary establishment immediately opened, we should: incline to hope that some other building will be chosen. The E-Teze is a "deadhouse" to the eyes of the Chinese, and it will be difficult to persuade them that future visitants will have a better prospect of leaving the place alive than had those whose sufferings recently evoked public sympathy. Rather let it be devoted to its original purpose—that of storing coffins to wait removal—and only that We do not fear any repetition of former horrors. But let us by all means get quit of any connection between the healing art (even though it be exercised by native hands) and the name which has become synonomous with heartless neglect and incredible cruelty. Let a temporary hospital be nevertheless instituted with all speed. Surely Hongkong can furnish one small building for such a purpose when all sections of the commu-

nity are agreed upon its necessity!

COOLIE EMIGRATION TO PERU WE translate the subjoined documents from the official journal of Macso. Some time ago, it will be rememthe Governor of Macso prohibited further coolie emigration to from Macao, in consequence of a report from the Portuguese Consul at Lima that certain Chinese emigrants had been branded like cattle by one of their masters. The Consul now says that this is a "base calumny," which has no other foundation than a statement in a newspaper; and in care for those "who have embarked large capital in the business of engaging emigrants at Macao to labour in Peru," he hastens to deny the asserted calumny, and the Portuguese Consulate at Lima "will be the first to applaud as an act of justice and prudence," the rescinding of the measure prohibiting coolie emigration from Macko It seems strange that a Consul should have acted on a newspaper statement of so serious a nature without having innuired into its accuracy before making through which "losses have fallen upon that settlement." Has any pressure been put on the Consul at Lima! It is fashionable among some Portuguese offcials at Macao to throw discredit on newspaper statements which are never theless true, and it is quite possible that the the same disposition exists at Lima It is not every port of coolie export nandes, and we can easily underofficial who now assures H. THE TREATY PORTS OF CHINA & JAPAN," AND "NOTES AND QUERIES ON CHINA AND JAPAN." EXTRACTS FROM REVIEWS.

From the Stratte Times," July 27, 1868.) Some time ago we had occasion to remark upon the progress that Literature as represented by the Press had made and was making in the East, and our attention has again been called to the subject by the receipt of a Hongkong publication which deserves some notice and which we have much pleasure in introducing to the knowledge of our readers. We allude to Notes and Queries on thina and Japan, published monthly by Mr Saint, the proprietor of the China Mail newspaper. This publication well printed on good paper, and in size and shape is very like its well-known namesake or prototype at home, and is equally a mine containing very curious and useful information regarding the language, literature, history, manners and customs of the Chinese and in a less degree of the Japanese. It says a good deal for the extent and stability of the footing of Europeans in China, that such a publication as this should be established and conducted with

apparently successful vigour. The publication is altogether a very interesting one, and wishing it every success, we commend it to the attention and support of our readers.

(From the "Friend of India," June 4, 1868.) We acknowledge with thanks the receipt f the numbers for the current year of Notes and Queries," a most deserving Anglo-Chinese monthly, edited by Mr N. B. Dennys, whose "Treaty Ports of China and Japan" are so well known. From the names attached to the "Notes" we can see that the contributors include some of the best Chinese scholars in the East. Its interest is not confined to China, and it will be of valuable assistance to all scholars, who have directed their attention towards the subject of Buddhism and its literature, and generally to all who are interested in oriental antiquities. It deserves to be better known in India.

(From the "Lundon Examiner." May

This really useful volume ["Treaty Ports" China and Japan "] is intended as a guide for travellers and residents in China and Japan, and as a book of reference for mercantile men generally. It contains an account, historical and political, of all the open ports of these countries, together with Peking, Yedo, Hongkong, and Macao. It as been carefully compiled and edited by Mr N. B. Dennys; and the elaborate maps and plaus, with which the work abounds. considerably enhance its value. * * *

We have thus given in outline some of the more prominent portions of the chapter devoted to Canton, as a specimen of the whole volume. Other chapters treating of Macao, Formosa, Ningpo, Shanghae, and the remainder of the treaty ports, we can only enumerate. The pages describing Peking, the capital, are so interesting, and contain so much that is new to European Filet Boats shall be registered with readers respecting its history, public builtheir crews at the Harbour Master's Office, dings, and general characteristics, that we where each boat will be given a cartificate would fain transfer them to our columns.
